## WINTER HIKES

Directly next to the top station of the Karwendelbahn, you can hike through the high mountains covered in deep snow. We clear the panoramic trail to the „Passamani“ viewpoint. A special highlight is the panoramic guided tour, which takes place every Tuesday at 10.45 a.m. and is free of charge. The meeting point is at the sun terrace next to the mountain restaurant.

**Don't forget: Please wear sturdy footwear!!!**

## AROUND THE TOP STATION

A visit to the nature information centre is definitely part of any visit to the Karwendel. The „huge telescope“ protrudes spectacularly over the cliff edge towards Mittenwald. An exhilarating 1300 metre drop gives you an incredible view over the wide Isar valley. Inside you will find lots of interesting facts about the Karwendel, the largest nature reserve in the Eastern Alps, a natural habitat for animals and fauna. The nature information centre, the „Bergwelt Karwendel“ is open for the normal operating times of the Karwendelbahn.

**Entrance is naturally free of charge.**

## THE MOUNTAIN RESTAURANT

**Mountain air certainly makes you hungry!**

The team from the mountain restaurant will prepare local delicacies for you. Enjoy the mountainous views with a wheat beer, hearty cold snack and Kaiserschmarrn (sugary pieces of thick pancake). On the sun terrace directly next to the mountain restaurant sun loungers are available free of charge, even in winter.
